

# INSTRUCTIONS FOR IKA HOE ( AND OTHER HAND HOES )

IF HEAD BEGINS TO SLIDE OFF HANDLE,  
DO NOT HAMMER ON TOP.  
THIS BENDS METAL INTO "EYE", SO THAT HANDLE  
WILL NOT GO THROUGH.  
INSTEAD, HIT END OF HANDLE ON ROCK, ETC.,  
OR HAMMER ON END.  
HAMMER WEDGE ( TAPED ON HANDLE ) INTO "SAW  
KERF" TO TIGHTEN HANDLE IF NECESSARY.
